You shouldn't use a space " " instead of "0" because the excel deal with the space as a value. So, the answer is with the option by (Ctrl + F). Then, click the options and put in the Find with "0".

How to remove only 0 (Zero) values from column in excel 2010

Hi- I have data that spans numerous months and sites. I was measuring species found there so I need all of the species to show up, but some sites or months don't have that particular species. How can I get the gaps in data to disappear so it shows the data together? The example shows the data and how it is charting. I'd like, for example, Hozomeen - April to have no white space, but rather to ...
