Hello all! Well, its not my first choice... but the price was right... it was given to me. So I now have a MOTU MIDI Time Piece II. And I have no idea what I can do with it, other than the basic functions on the front, which are quite useful in a couple of different situations (makes a great MIDI router, of sorts, for large guitar rigs), but I'm wondering how much I'm missing.

MOTUnation.com • MIDI TimePiece II help! Manual, anyone?

I'm not looking for the MOTU Timepiece to generate clock at all, or even receive it. Just need my external synths like a Volca Bass, to receive MIDI clock from my external sequencer through the MOTU, just as if I direct connected the sequencer to the synth. Any help would be greatly appreciated. Thanks All
