After reading this Nikon D70s guide, it should be clear that this camera is very similar to the Nikon D50. The few additional features that the camera includes are geared for photographers who want manual control. If you don't want manual control then stick with the D50, because you will pay a premium for the extra features offered by the D70s.

I have a Nikon D70 and was getting to learn it and ran into something that maybe others have an answer for. In some cases the autofocus doesn't work well and the system has a hard time trying to focus and give me the green steady light with the beep. A guide book says to use manual focus and that if I have a F5.6 or faster lens that I can
