The eCanter has been presented at the IAA 2016, and the launch event was held at NY on 14th Sep, 2017 The FUSO eCanter with its locally emission-free drive will not only relieve the city centers from exhaust and noise emissions, but will also be an economically attractive alternative to the diesel engine.

### **FUSO eCanter - Powered by positive Energy**

The engine's timing belt drives the camshaft (s) ("top end") from the rotation of the crankshaft ("bottom end"). The belt keeps the piston and valves in "time" during operation. Serious internal engine damage can occur when the piston and valves come into contact with each other "out-of-time" caused by a damaged belt etc.
