Where do I position the camshaft sprocket on a Nissan Z20 engine to get the correct Valve Timing. The Sprocket has three positions on it marked 1,2 and 3 with a corresponding notch on the edge also marked 1,2 and 3. In addition the crankshaft pulley has five notches on it. Where is TDC and what do the other notches represent? Many thanks Bob

thanks alot man its the Z20 engine you have right. Also does the book have anything on how to set the distributor because the people that i gave to fix the engine they made a mess of it and i just want to see where the number one piston fires on the distributor if its too much the carb repair section would be fine
