Note: We typically add false inflation alerts on any items that have jumped 300% or more in price compared to our current listed price. We typically only do this for items costing >100,000 NP, or buyable items that have gone unbuyable. For example, an item that goes from 500 NP to 2,000 NP would not receive an alert.

Demining or mine clearance is the process of removing land mines from an area. In military operations, the object is to rapidly clear a path through a minefield, and this is often done with devices such as mine plows and blast waves. By contrast, the goal of humanitarian demining is to remove all of the landmines to a given depth and make the land safe for human use.
