Hey everyone Does anyone know what modifications i need to do to the 4g92 SOHC loom for it to plug into a 4g92 dohc-mivec engine and ecu? Also the ecu is for an auto, but the looms from a manual, and the cars a manual, will i need to short a few pins on the ecu for it to start (trick it into thinking its in P or N)??

This is the biggest aspect of the MIVEC engine conversion that has people intimidated. If you have basic wiring experience (ie If you can install a stereo), you can easily do this. In a perfect world the method of controlling the MIVEC solenoid is via the ECU, however this is still very early in development to be available.
