I have a 2009 freightliner with a 14 liter detroit with the regin system. The problem that i am having is that the oil pressure is suddenly rising up and shutting the truck down all of a sudden. If i take my foot off the throttle the truck will idle for a little while and then shut down, what could be this issue?

SAE J1587 is a specification which defines messages that are transmitted on a SAE J1708 network. J1708 specifies the data link and physical layers, while J1587 specifies the transport, network, and application layers. J1587 is similar to J1922, which also defines messages for a J1708 network and also the same three protocol layers.
