Can any of the old harley guys give me some input here. One guy told me this type of noise is normal for this era machine. It does it worse when cold like here. Sometimes it completely goes away ...

**Harley engine noise.**

A vehicle with a twin cam engine has one camshaft controlling the engine's inlet valve and a separate one operating the exhaust valve. Harley-Davidson (HD) motorcycles come equipped with these types of engines, and sometimes, riders report engine noise. These sounds can result from several possible causes.

**Causes of HD Twin Cam Engine Noise | It Still Runs**

This is not the cause of the noise. The noise is too loud to be that. I think the key is that the noise intensifies when decelerating. It might not be in the top end, it sounds like it's coming from there, but the way the noise travels in these engine, who knows.

**engine noise | Harley Davidson Forums**

Harley Davidson Dyna Glide: Engine Noise Diagnostic Guide. The Harley V-twin engine is characteristically noisy. Many owners find themselves fretting over engine sounds that clatter, tick, and rattle, but experience no ride-ability issues or loss of performance.

**Harley Davidson Dyna Glide Engine Noise Diagnostic Guide ...**

I noticed what seems to me to be excessive engine noise compared to my last jap bike. It sounds like tappet noise. Harley says there engines have hydraulic lifters which should be quiet. Is this noise normal ?. Its not super loud but it is noticable. The engine has 7,500 miles on it . 2004 sporty
