Ron's Model Engineering and Model IC Engines Index

This page presents general techniques for the common tasks encountered when building a model IC engine in a home workshop. Many of the techniques are repeated on the pages dedicated to specific engines, but finding the nuggets you need among all my other verbiage and adjectival-overkill can be a pain, even using the Site Search facility. So the ...

Techniques for Model IC Engine Building

Internal Combustion Engine Plans . We have Petrol Engine Plans, Diesel Engine Plans and Alcohol or Glow Engines Plans - along with a selection of CO2 and Gas powered engines . Due to the large amount of free engine plans available from John-Tom.com, we have opened a separate page for IC Engines.

Model IC Engines - John-Tom Engine Plans

The Model Engineering Section of the Internet Craftsmanship Museum SECTION 1 INTERNAL COMBUSTION ENGINES. Ron Colonna's 1/4 scale 270 Offenhauser 4-cylinder engine takes model engineering to the highest level because Ron has not only built the engine, he has also documented it in a book with plans so that others can benefit from his experience and built it too.

Diesel engines are another choice but are probably the least common of all IC model aero engines. Diesel model airplane engines such as the PAW (Progress Aero Works from the UK) shown right are typically used in vintage rc airplanes to keep the model as authentic as possible; such engines were being manufactured long before glow plug technology ...

RC Model Airplane Engines

Model Engine Builder magazine is for those who love Internal Combustion, Steam, and Stirling

Model Engines that run! Whether you are an expert, have already built a few engines, are a beginner, are dreaming of the future, or just enjoy reading about these marvelous little engines, you'll find Model Engine Builder magazine interesting, informative, and fun!

Model Engine Builder

An internal combustion engine (ICE) is a heat engine where the combustion of a fuel occurs with an oxidizer (usually air) in a combustion chamber that is an integral part of the working fluid flow circuit. In an internal combustion engine, the expansion of the high-temperature and high-pressure gases produced by combustion applies direct force to some component of the engine.

Internal combustion engine - Wikipedia

Ilderton steam&tractor heritage show. found some of my other interests at the show other than tractors, model internal combustion engines! the running engine is an Atkinson, the rest im not sure ...

model IC engines (Atkinson)

I have seen running engines with brass cylinder and pistons, brass (unplated) cylinders with aluminium pistons (with and without rings), various cast iron and steel cylinders with cast iron or aluminium pistons. In high performance model aircraft engines ABC, aluminium piston in a chrome plated brass cylinder was and maybe still is popular.

However, I make no claim of suitability of any of the above ignition units for non-model engines. Some of these engine types may be suitable and some may not be. If you want to convert these engines, you are on your own, so you should consider the use of these ignition modules and/or coils

on non-model engines to be experimentation on your part.
